PROJECTS

Title:- Frequency Reconfigurable Antenna

- This is a Frequency reconfigurable C Shape substrate integrated waveguide antenna for cognitive radio application.
- In this project, we design an antenna which shows multiband frequency reconfigurability.
- Frequency Reconfigurability is achieved by inserting copper strips in the slots.
- Suitable for Cognitive Radio Application (overall gain achieved is 98%).

Title:- Portfolio Website

- This is a Responsive Personal Portfolio Website.
- This project uses HTML, CSS and JavaScript to fulfill its objective.
- It also uses media queries and JavaScript libraries.

ACHIEVEMENT

- Academic Project Presented in ICAIAA 2022 Conference.

SKILLS

- C++
- DATASTRUCTURE
- Algorithms
- HTML/ CSS
- OOPS
- SQL/MYSQL
- GIT/GITHUB

EDUCATION

B.TECH in Electronics and Communication Engineering (Score: 7.62 CGPA)

Galgotia's College of Engineering and Technology
2019-2023

12th - (Score: 79%)

Central Board Of Secondary Education
Passing Year: 2019

10th - (Score: 9.6 CGPA)

Central Board Of Secondary Education
Passing Year: 2017
